# ITU iBeacon Info

As of October 2015, we have deployed iBeacons on (almost) all of our WiFi APs.

(What are iBeacons? https://en.wikipedia.org/wiki/IBeacon )

These are simple USB 4.0 dongles sitting in our APs. They are configured via the WiFi Aerohive HiveManager.

They all have the same

**UUID**

E3B54450AB734D7985D6 519EAF0F45D9

Location is indicated by the so-called Major and Minor settings. Each is a 4-digit number.

**Major:**

Floor

**Minor:**

____      ____ ____     ____

Area      R o o m      Number (most rooms just have 1)

Area:
1 = A
2 = B
3 = C
4 = D
5 = E

**Example:**

Major: 5 Minor: 1561

= *the first Beacon in 5A56*

Major: 2 Minor: 3121

= *the first Beacon at 2C12*
